2023 10X Rosé

Our Thoughts

A lifted bouquet of elderflower, cherry, and floral nuances capture the beauty of the Pinot Noir grape with equally adopted flavours continuing throughout the palate. While the mouthfeel exerts a creaminess, the overall savoury nature of this wine leads our winemakers to believe this is our best Rosé to date.

Vintage Comment

Higher than average rainfall during flowering and over the course of the season resulted in lower yields on all sites. Flavour and sugar development were prolonged, resulting in more hang time, greater intensity and drive.
